

	<h2>MAGIC SAND® LIGHT GREY</h2> <h3>Highly Absorbent Bentonite Cat Litter</h3>
---	--

Description

Bentonite, natural clay granules with a light grey colour, that can be used as cat litter. Its main characteristics include: high absorbency, hard and fast clumping and excellent odour control. It is dust free and safe and easy to use. It can also be used for liquid waste absorption in garbage bins, oil waste in garages etc.

Technical Specifications

Sieve Analysis	:	0.5 – 2.5 mm
Moisture	:	≤ 12 %
Absorbency	:	≥ 180
Weight of clump (25 ml water)	:	≤ 100 g
Bulk Density	:	980 – 1070 kg/m ³

Instructions for Use

Fill the cat litter tray with at least 5-7 cm of **MAGIC SAND®** granules, ensuring the tray does not overflow. When soiled, the granules form a visible clump. Scoop clumps and solids daily and refill with fresh material. On a regular basis, empty the tray and wash out using a household detergent. Dry thoroughly before refilling with **MAGIC SAND®** litter.

FRAGRANCE: Available unscented and with lavender scent.

PACKING: Paper bags of 5 kg & 10 kg.

Health and Safety Measures

- Keep out of reach of children.
- Do not flush.
- Dispose of waste with regular garbage.
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- If swallowed, seek medical advice immediately and show the packaging.
- For more information, please refer to Safety Data Sheet.

Note: The information supplied in our literature or given by our employees, agents or distributors concerning the use of our products is based upon extensive experience and given in good faith in order to help you. We guarantee the consistent high quality of our products; however, as we have no control over site conditions of the executions of work, we cannot accept any liability for any loss or damage, which may arise as a result thereof.
