Technical Specifications

Specific Gravity	:	0.95±0.02
Viscosity	:	95±5KU
Dilution	:	Ready for use
Flash point	:	<23°C
Coverage	:	3-5 m ² /L depending on the surface and the type of coating

Instructions for Use

APPLICATION

Apply a thin coat of **PAINT AND VARNISH REMOVER** on the surface. After a few minutes apply an abundant layer. After the product to be removed is soft enough, and before it dries out, scrape off with a paint scraper. On surfaces which are not smooth, use a hard brush. All surfaces, except wooden, are washed out with water and wiped dry. After drying, the surface can be painted. Wooden surfaces are preferably cleaned with white spirit. In such case, and if needed, light sanding is recommended before painting or varnishing the surface.

It is not recommended to use on plastic or rubber surfaces and other similar surfaces.

APPLICATION

Thinning/Cleaning: Ready for use.

Application tools: Brush, Paint Scraper, Hard Brush.

Application Temperature: Ideal temperature for the application should be between 5-35°C and the relative humidity should not exceed 80%.

Stir well before use. Open the container carefully!

PACKING: 0.5L, 1L & 4L.

COLOUR: Colourless.

STORAGE: Store in a dry place, away from direct sunlight and/or extreme temperatures. Close the container after application.

Health and Safety Measures

- Keep out of reach of children.
- Highly flammable liquid and vapour.
- May cause cancer.
- May cause genetic defects.
- May damage fertility. Suspected of damaging the unborn child. Restricted to professional users.
